

Dear Incoming Sixth Grade Parents and Students,

We made it to summer and time to enjoy the sunshine! I know we will all be having lots of fun, but we still need to keep our skills fresh and up to date. I will be requiring the incoming 6<sup>th</sup> grade students to complete the skill sets on [ixl.com](http://www.ixl.com) over summer. Students have their login and password information needed (it is what they used during the school year).

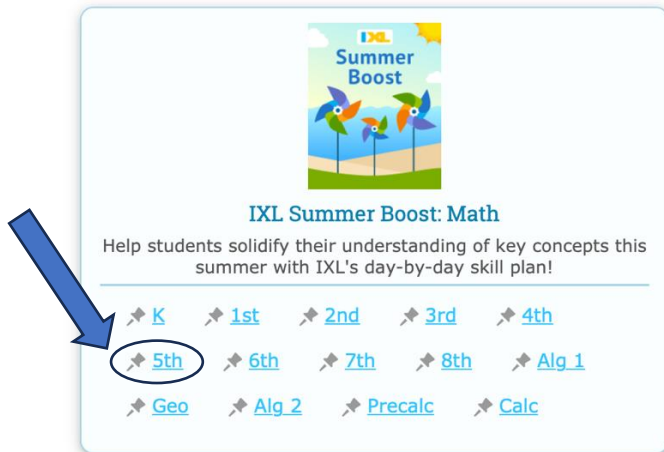

1. Students will login into [www.ixl.com](http://www.ixl.com)
2. Go to Learning Tab at the top of the page.

3. Select Math skills.
4. Scroll down to 5<sup>th</sup> Grade and select skills.
5. Above the title Fifth Grade math, you will see skill plans (blue print). Click on that button

6. Select IXL Summer Boost.

7. Select 5<sup>th</sup> grade

Students will need to complete the four weeks of skills. It does not need to be completed all at once or everyday. I recommend students not wait until the last couple of weeks of summer to complete this assignment. Space out the work so it's not so overwhelming, about 30 minutes at a time.

These skills will help students maintain and further their learning during the summer months.

Have a safe and wonderful summer! I will see you all in August!

Mrs. Huelsman
