

Dear Parents and Students,

We made it to the last day of school! Mrs. Siemer and I are requiring the incoming 7<sup>th</sup> grade students to complete the skill sets on ixl.com over summer. Students have their login and password information needed for this website inside of their assignment books.

1. Students will login into [www.ixl.com](http://www.ixl.com)
2. Go to Learning Tab at the top of the page.

3. Select Math skills.
4. Scroll down to 6<sup>th</sup> Grade and select skills.
5. Above the title Sixth Grade math, you will see skill plans (blue print). Click on that button

## 6. Select IXL Summer Boost.

## 7. Select 6<sup>th</sup> grade

Students will need to complete the four weeks of skills. It does not need to be completed all at once or everyday. We recommend students not wait until the last couple of weeks of school complete this assignment. Space it out the work so it's not so overwhelming, about 30 minutes at a time.

These skills will help students maintain and further their learning during the summer months.

Have a safe and wonderful summer!

Mrs. Huelsman
